**LISTENING**  
Your scaled score is between 400 and 495. Test takers who score around 400 typically have the following strengths:  
• They can infer the central idea, purpose, and basic context of short spoken exchanges across a broad range of vocabulary, even when conversational responses are indirect or not easy to predict.  
• They can infer the central idea, purpose, and basic context of extended spoken texts across a broad range of vocabulary. They can do this even when the information is not supported by repetition or paraphrase and when it is necessary to connect information across the text.  
• They can understand details in short spoken exchanges, even when negative constructions are present, when the language is syntactically complex, or when difficult vocabulary is used.  
• They can understand details in extended spoken texts, even when it is necessary to connect information across the text and when this information is not supported by repetition. They can understand details when the information is paraphrased or when negative constructions are present.  
To see weaknesses typical of test takers who score around 400, see the "Proficiency Description Table."

**READING**  
Your scaled score is between 350 and 450. Test takers who score around 350 typically have the following strengths:  
• They can infer the central idea and purpose of a written text, and they can make inferences about details.  
• They can read for meaning. They can understand factual information, even when it is paraphrased.  
• They can connect information across a small area within a text, even when the vocabulary and grammar of the text are difficult.  
• They can understand medium-level vocabulary. They can sometimes understand difficult vocabulary in context, unusual meanings of common words, and idiomatic usage.  
• They can understand rule-based grammatical structures. They can also understand difficult, complex, and uncommon grammatical constructions.  
To see weaknesses typical of test takers who score around 350, see the "Proficiency Description Table." If your performance is closer to 450, you should review the descriptors for test takers who score around 450.

**ABILITIES MEASURED**  
PERCENT CORRECT OF ABILITIES MEASURED
